[001] There was an agreement in place between the proprietor and a licensee, Ennova Direct Inc, with regard to payment of the 6th year renewal fee. The agreement was such that Ennova Direct Inc. would assume responsibility for paying the 6th year renewal fee. We, as representatives, received instructions from Ennova Direct Inc and timely tended to the payment of the 6th year renewal fee.

[002] The final date upon which the 7th year renewal fee was payable, with surcharge, was **31 January 2006.**

[003] The proprietor was of the understanding that the previous year's arrangement with Ennova Direct Inc. with regard to renewal fees was still in place and that Ennova Direct Inc was responsible for the 7th year renewal fee. To this end, the proprietor reminded Ennova Direct Inc. by email on 6 January 2006 of the need to timely tend to the payment of the renewal fee.

[004] Ennova Direct Inc. did not contact the proprietor to inform them that Ennova Direct Inc. would not be timely paying the fee. Indeed, the proprietor was in verbal communication with Ennova Direct Inc., following the emailed request of 6th January 2006. During those communications, no mention was made by Ennova Direct Inc. to the proprietor that the fee would not be paid.

[005] On 20 February 2006, Ennova Direct Inc. contacted the proprietor and communicated that the 7th year renewal fee was not timely paid by the deadline of 31st January 2006. It was at this point that the proprietor first learnt that the fee had not been paid.

[006] Thus, as evidenced by the above facts and grounds, the proprietor took all due care required by the circumstances to ensure that that the 7th year renewal fee was timely paid.

We respectfully request that the application for be re-established. If at any time during proceedings, refusal of the application for *restitutio in integrum* is contemplated, we hereby request Oral proceedings.

Please confirm safe receipt of this letter by return facsimile.

Yours faithfully

Colin Lobban

**COMMUNICATION CONCERNING THE SUSPENSION OF GRANT
PROCEEDINGS UNDER RULE 13(1) EPC.**

Reference is made to your letter dated 10 April 2006, received at the EPO on 12 April 2006, which has crossed with the communication from the Legal Division dated 18 April 2006.

Please be informed as follows:

1. The European patent application is deemed to be withdrawn for non-payment of the renewal fee for the seventh year. Please see the communications from the Legal Division dated 1 March and 18 April 2006. In the meantime the applicant has filed by fax on 20 April 2006 a request for restitutio in integrum pursuant to Article 122 EPC.

2. Your request to transfer the application cannot be granted. For a European patent application to be transferred to a new owner the following apply: a transfer of a European patent application shall be recorded in the Register of European Patents at the request of an interested party on production either of the original or of a certified copy of the instrument of transfer, or of official documents verifying the transfer, or of such extracts from such instrument or documents as suffice to establish the transfer (Rule 20(1), first sentence, EPC). This request shall not be deemed to have been filed until such time as an administrative fee has been paid (Rule 20(2), first sentence, EPC). Please see the communication from the Legal Division dated 1 March 2006.

3. As the European Patent Office was informed that the applicant, Twenty-First Century Technology, Inc., seems to be submitted to a bankruptcy procedure in the United States of America, the authorised patent attorney of the applicant was informed of this situation and was requested to file the relevant evidence so as to permit the Legal Division to study the applicability of Rule 90(1)(b) EPC.

4. For your information, if both Rules 13 and 90 EPC were theoretically applicable a bankruptcy procedure of the applicant would prevent the applicability of a Rule 13 procedure initiated by a third party.

5. Please be also reminded that you are not a party to the proceedings. You can study the continuation of the procedure of this application on www.epoline.org.
